

PCA plot showing the first two dimensions (Dim1 and Dim2) of the data. The x-axis is Dim1 (53%) and the y-axis is Dim2 (32%). The plot displays 30 samples, colored by group: red for Group 1, blue for Group 2, and green for Group 3. Convex hulls are drawn around each group. The red group is clustered on the left, the blue group is in the middle, and the green group is on the right. Some samples are labeled with their IDs.
